

Community Coalition Assessment

Transformational change occurs when diverse stakeholders come together to proactively execute new paradigms, new service delivery systems, or new ways of creating and deploying resources that are efficient, sustainable and result in a better healthcare experience for consumers and providers.

Objective: Complete an assessment at least annually for self-evaluation of current effectiveness of interventions and goals and to guide the identification of opportunities for further growth and sustainability.

Check if this component of an effective coalition is solidly in place	Key Component	Next Steps to Create or Refine
<input type="checkbox"/> Compelling Purpose	<p>▶ Our coalition has a Mission or Motivating Vision Statement that clearly articulates the team's shared purpose</p> <p><i>Tips:</i></p> <ul style="list-style-type: none"> • The shared purpose should be impactful for the health and health care in the community • The shared purpose addresses a significant challenge that will require the team's best efforts. 	
<input type="checkbox"/> The Right People	<p>▶ Members of our coalition have the diversity of roles and perspectives to lead with legitimacy in the eyes of stakeholders</p> <p><i>Tips:</i></p> <ul style="list-style-type: none"> • Team members display a high level of systems thinking – how individual things influence the whole • Brainstorm what other community partners and stakeholders across levels of care should be considered for invitation to join the coalition's work – who else needs to be at the table? 	
<input type="checkbox"/> Enabling Structure	<p>▶ Members have defined roles and meetings conclude with specific action items</p> <p><i>Tips:</i></p> <ul style="list-style-type: none"> • Working committees help drive progress between meetings • Shared governance ensures all team members are engaged – equal partnership, responsibility, and accountability • Agendas are sent before meetings and minutes are generated afterward 	
<input type="checkbox"/> Goals and Tactics	<p>▶ Data review determines coalition goals are measurable; timelines and key milestone dates are established</p> <p><i>Tips:</i></p> <ul style="list-style-type: none"> • Coalition team members know the what, how and why for how the team will accomplish identified SMART goals • RCA are conducted at least annually or more often as needed and interventions are modified based on the results • Feedback is obtained from key stakeholders • The achievement of key milestones is celebrated 	
<input type="checkbox"/> Sustainability	<p>▶ The coalition has the level of engagement and resources needed for sustainability</p> <p><i>Tips:</i></p> <ol style="list-style-type: none"> 1. Consider a schedule to reassess effectiveness at least annually and ask: <ul style="list-style-type: none"> • Are we effectively moving past our own priorities and preferences for approaches to our work? • How well are we able to align our collective work and achieve the shared vision? • How might we work together more effectively as a community to manage interventions so they produce and sustain the change we desire 	

Community Coalition Assessment

Please identify whether your Coalition has previously done work in this area, is currently doing work in this area, or has identified this as a priority for future work.

CMS Priority Area	Coalition Work on this Focus Area	Brief Description of Prior Work in this Area
Improve Behavioral Health Outcomes - focusing on Decreased Opioid Misuse	<input type="checkbox"/> Projects have been completed <input type="checkbox"/> Coalition is actively working in this area <input type="checkbox"/> This is a priority for future work <ul style="list-style-type: none"> <input type="checkbox"/> High priority <input type="checkbox"/> Secondary priority <input type="checkbox"/> Low priority <input type="checkbox"/> This area is not a priority for this community	
Increase Patient Safety: Reduce all cause harm and reduce adverse drug events	<input type="checkbox"/> Projects have been completed <input type="checkbox"/> Coalition is actively working in this area <input type="checkbox"/> This is a priority for future work <ul style="list-style-type: none"> <input type="checkbox"/> High priority <input type="checkbox"/> Secondary priority <input type="checkbox"/> Low priority <input type="checkbox"/> This area is not a priority for this community	
Increase Chronic Disease Self-Management (Cardiac, Diabetes, and assessing and slowing CKD)	<input type="checkbox"/> Projects have been completed <input type="checkbox"/> Coalition is actively working in this area <input type="checkbox"/> This is a priority for future work <ul style="list-style-type: none"> <input type="checkbox"/> High priority <input type="checkbox"/> Secondary priority <input type="checkbox"/> Low priority <input type="checkbox"/> This area is not a priority for this community	
Improve Community-based Care Transitions to reduce hospital admissions and reduce hospital readmissions	<input type="checkbox"/> Projects have been completed <input type="checkbox"/> Coalition is actively working in this area <input type="checkbox"/> This is a priority for future work <ul style="list-style-type: none"> <input type="checkbox"/> High priority <input type="checkbox"/> Secondary priority <input type="checkbox"/> Low priority <input type="checkbox"/> This area is not a priority for this community	
Improve Quality and Patient Safety in long-term care settings (focus on Infection Control)	<input type="checkbox"/> Projects have been completed <input type="checkbox"/> Coalition is actively working in this area <input type="checkbox"/> This is a priority for future work <ul style="list-style-type: none"> <input type="checkbox"/> High priority <input type="checkbox"/> Secondary priority <input type="checkbox"/> Low priority <input type="checkbox"/> This area is not a priority for this community
