Event Description:

The is Learning Action Network event will take you through the most common ADEs and their risk factors for opioid and antipsychotic medications. Case studies will be discussed to help hone your skills for identifying ADEs.

Join this interactive event to learn more about ADEs and how you can take steps to prevent them!

Hosted by Alliant Quality, the quality improvement group of Alliant Health Solutions (AHS), the Medicare Quality Innovation Network-Quality Improvement Organization (QIN-QIO) for Alabama, Florida, Georgia, Kentucky, Louisiana, North Carolina, and Tennessee.

Learning Objectives:

- Define Adverse Drug Event (ADE)
- Review common ADEs for opioids and antipsychotics
- Identify risk factors for opioid and antipsychotic ADEs
- Examine patient cases
- Determine if the cases were ADE related
