

Naloxone Saves Lives

BEHAVIORAL HEALTH

JOIN OUR UPCOMING TRAINING Naloxone and Overdose Prevention

Wednesday, July 14, 2021
**2:30-3:15pm ET/
1:30-2:15pm CT**

Learning Objectives:

- Summarize current harm reduction and overdose prevention initiatives in Florida
- Identify different ways to obtain Naloxone in Florida
- Demonstrate how to recognize and respond to an opioid overdose
- Develop understanding of Florida's 911 Good Samaritan Act and Emergency Treatment and Recovery Act

Opioid overdose is the leading cause of accidental death in the United States. Naloxone has been proven to reverse the effects of opioid overdose.

Audience:
Community Coalitions

Featured Speaker:

Shelby Meaders, MPH

Overdose Prevention
Coordinator
Office of Substance Abuse and
Mental Health
Florida Department of Children
and Families

Teaching people to administer naloxone is an effective means of preventing deaths among people who may overdose or misuse opioids.

Who should participate: This training is intended for beneficiaries (patients), family members, community members, coalition members, clinicians, treatment providers, and long-term care facility staff.
