## JOIN OUR UPCOMING WEBINAR EVENT

### Optimizing Care Transitions of Older Adults with Diabetes

**Thursday, July 22, 2021**

**12:30-1:00pm ET/11:30-12:00pm CT**

#### Event Description:

Over 25% of adults over the age of 65 years have diabetes. We will discuss factors that contribute to complexity of care transitions for older adults with diabetes, interventions to support effective care transitions and challenges faced post discharge identified during interviews with patients and care-partners.

Please invite your friends, colleagues, and loved ones to attend this event with you to learn together and support each other.

Hosted by Alliant Quality, the quality improvement group of Alliant Health Solutions (AHS), the Medicare Quality Innovation Network-Quality Improvement Organization (QIN-QIO) for Alabama, Florida, Georgia, Kentucky, Louisiana, North Carolina, and Tennessee.

#### Learning Objectives:

- Describe patient-related factors that add complexity to care transitions of older adults with diabetes.
- Discuss system-related factors that may contribute to poor transition outcomes in older adults with diabetes.
- Discuss strategies to optimize effective home transitions of older adults with diabetes.

Audience:  
**Community Coalitions**
